Dear Parents/Guardians,

Over the coming few weeks in Room 2.4, we will be focusing on Sustainability and developing Sustainable Practices as part of our Geography and Design and Technologies curriculum. Our focus will conclude in Week 4 (November 2nd-6th) with students creating a model of a “special place” to them from recycled and reused materials.

To make these models we are asking if students could please bring in from home ‘waste’ and ‘found’ items they may collect to share with the class in their constructions. I must stress there is no need for you to spend any money as our education is in reducing waste and recycling.

Below is a list of some suggested items but this is not a restricted list. Please ensure any food related items have been thoroughly cleaned and in a safe condition.

Thank you for your support. If you have any questions or concerns over the next four weeks, please feel free to send a note or ring the front office with a message and I will endeavour to contact you back as soon as possible.

Kind Regards,
Kelly Rivett

- Bottle Lids or caps
- Packaging boxes
- Pull ring tops
- Bread Tags
- Cardboard tubes (excl. toilet rolls)
- Plastic containers/ Yoghurt cups
- Colourful pieces of plastic or foil
- Stray buttons and beads
- Empty pens
